

Rock County Facility Care Guide Community Based Residential Facilities Adult Family Homes Nursing Homes

The attached list provides information about Community Based Residential Facilities, Adult Family Homes, and Nursing Homes in Rock County.

Due to the changing nature of the industry, this list may not be comprehensive. Although the Alzheimer's & Dementia Alliance of Wisconsin does not endorse or promote facilities, we are available to help families identify those services which might best meet the individual's needs and circumstances.

An additional helpful resource available to answer questions about individual facilities in your area is: The State of Wisconsin Long Term Care Ombudsman, 800-815-0015.

If you have any questions or need more information about resources in your area or in the other counties we serve, please call the Alzheimer's & Dementia Alliance of Wisconsin (ADAW) at 888-308-6251.

CHOOSING A NEW HOME

When the time comes for a person with Alzheimer's disease or other dementias to move into a residential care setting (e.g., nursing home, community based residential facility, assisted living, etc.), it can be very difficult for both the person and family. In addition, finding the right residential care setting to meet the needs of the person with dementia can be challenging and time consuming. Listed below are a few tips as you begin the search for a new home. The Alzheimer's & Dementia Alliance of Wisconsin is always available to answer questions and help in problem-solving.

1. Visit different places. If possible, it is usually best to visit any place that you are considering. The amount of care required and the atmosphere desired will determine the type of residential care setting you should visit. Visiting unannounced at different times of day can give you an idea of what an average day may be like.
2. Ask questions. It is important to ask specific questions about the facility's ability to provide dementia care. For example:
 - What is your philosophy regarding Alzheimer/dementia care?
 - What is your process for developing a care/service plan?
 - What approaches are used when providing care to persons with dementia?
 - What types of activities are offered?
 - What are your staff qualifications and staffing levels?
 - How is your staff trained in dementia specific care?
2. How does your environment support persons with dementia?
3. Call the Alzheimer's & Dementia Alliance of Wisconsin (608-232-3400 or 888-308-6251) for a handout or email copy of "**RESIDENTIAL CARE: A GUIDE TO CHOOSING A NEW HOME**".
4. Talk with others. Often times, there may be people you know – family, friends, neighbors, co-workers – who can recommend a place that worked well for them. If possible, talk with family members and/or residents of facilities that you are considering. REMEMBER: Every individual situation is unique. What works well for one person, may not work for another. Use input from others as only one of several deciding factors.

COMMUNITY BASED RESIDENTIAL FACILITIES (CBRF)

A Community Based Residential Facility is a place where five or more individuals live and receive care. These facilities offer private or semi-private bedrooms with shared living and dining areas. Services include three meals per day, snacks, activities, assistance and/or supervision with activities of daily living. No more than three hours per week of nursing care can be provided in a CBRF setting. CBRFs are generally smaller than skilled nursing facilities. CBRFs are also licensed by the Department of Health & Family Services.

ADULT FAMILY HOMES (AFH)

Adult Family Homes also combine housing and care. Adult Family Homes provide assistance and/or supervision with activities of daily living to four or fewer individuals. No more than seven hours per week of nursing care can be given in an AFH. These facilities are licensed by the Department of Health & Family Services.

NURSING HOMES

Nursing homes are facilities that offer skilled nursing care and other services including: three meals per day, snacks, activities, assistance with activities of daily living, and dietician and social work services. They are most appropriate for frail individuals who have medical or nursing care needs. Some nursing homes have special care units designed to address the special needs of people with dementia.
